FROM: Robert A. Young
Associate Vice President
Academic Programs

SUBJECT: Full Status Approval for M.S. in Instructional Design & Technology

We are pleased to announce that the CSU Board of Trustees has given full status approval for the M.S. degree in Instructional Design and Technology, effective Fall 2007. This program has operated under a pilot status provision since Fall 2002. Since its inception, the program has awarded 51 master's degrees. We congratulate Dr. JoAnn Carter-Wells, Program Director, and Dean Claire Cavallaro, College of Education, on their preparation of the thorough program conversion documents. The program will continue to use the assigned degree-program reporting code number 08992.
